

# MGP CONFERENCE 2022 POSTERS

<b>Poster Title</b>	<b>Organization</b>
Directional TarGOST: Innovative Site Characterization for Integrated Remediation	AECOM
Key Findings Regarding Soil Gas Sampling at Former Manufactured Gas Distribution Holder Sites	Gradient
Identifying Natural and Anthropogenic Groundwater Discharge Areas in a Fractured Rock System and Use of Mass Flux to Support Remedy Selection	Brown and Caldwell
Effects of Hydrologic Boundary Conditions and Scaling on the Interpretation of Groundwater Flow at Environmental Sites	Burns & McDonnell
Raising Up Hunts Point	GEI Consultants, Inc.
In-Situ Stabilization: Comparisons of Predicted and Measured Effects on Groundwater Flow	GEI Consultants, Inc.
Long-Term Anaerobic Bioremediation of MGP Contaminants by Iron- and Sulfate-Reducing Bacteria Following Combined ISCO/ISS Treatment	Burns & McDonnell
Site Constraints, Technical Challenges and Contentious Access Agreements: What Else is New?	GZA GeoEnvironmental Inc.
Full-Scale Implementation of Aerobic Biooxidation to Deplete Groundwater Contaminants from Tar	AECOM
Managing Subsurface Obstructions During ISS Remediation of a 100-Year-Old Former MGP Site in an Urban Environment	Sevenson Environmental Services, Inc.
Optimized Reagent Blends for a Combined ISCO-ISS Remedy for Treatment of MGP Residuals	Evonik
In-Situ Stabilization of Soils Contaminated with Volatile Organics “Controlling Vapors	Forgen
Non-MGP Constituents and Closure	GEI Consultants, Inc.
Use of a Risk Register for Risk Mitigation and Contingency	GEI Consultants, Inc.
Proactive Safety Round Table: Is this 3-inch binder as good as it gets?	Haley & Aldrich
Perimeter Air Monitoring, Understanding the Basics of this Risk Management Tool	AirLogics
Air Monitoring and Management for Environmental Justice	AECOM
Real-Time Decision Making During Remedial Construction: Value Added Using OpenGround and Civil 3D	Haley & Aldrich
Phased Construction of a DNAPL Recovery System to Reduce Client Risk and Increase Third-party Property Owner Confidence	Ramboll
Barrier Wall IRM in Coordination with Facility Capitol Improvements	GEI Consultants, Inc.

# MGP CONFERENCE 2022 POSTERS

<b>Poster Title</b>	<b>Organization</b>
Implementation of Combined Remedy for Multiple Parcels with Evolving Property Usage	Burns & McDonnell
In-Situ Stabilization of Free Phase NAPL in Saturated Soil at a Former Petroleum Terminal	Forgen
Remedial Action Results, and Lessons Learned at the Orlando Former Gasification Plant Site, Operable Unit 1	Geosyntec Consultants, Inc.
ISS with Chemical Fixation at a Former Power Generating Station	Forgen
Historical Assessments of Former Manufactured Gas Plant Sites	Gradient
Understanding the Implications of Chemical Weathering on Source Attribution Near MGP Sites	Gradient
Closure of Legacy MGP Sites	Burns & McDonnell
New Jersey Stakeholder Management for MGP Remediation	Paulus, Sokolowski and Sartor
Groundwater Management During Remediation at a Former Manufactured Gas Plant Site Adjacent to a River	AECOM
